**Subject:** RE: OSP Weekly Report for the Week of September 12 – September 16, 2016

Jackie, I edited the one item a little – let me know if it's OK

**OSP Weekly Report**  
**Week of September 12 – September 16, 2016**

**Tire Crumb**

- Synthetic turf fields: The U.S. Army is continuing its collection of tire crumb samples from synthetic turf fields across the U.S.
- Manufacturing facilities: Tire crumb samples were collected from [REDACTED] in [REDACTED]. [REDACTED] Company will permit sample collection at its locations. The research team is working to finalize agreements with additional manufacturing facilities to collect tire crumb samples.
- On September 8, OLEM briefed OSP, NERL, CDC, and CPSC team members on its efforts to collect information on tire crumb manufacturing and use, and on its outreach activities with NGOs to listen to their concerns related to playing on fields containing tire crumb.

**TSCA Rulemakings**

- ORD provided comments on September 6 on draft regulatory language on two near-term TSCA regulations -- procedures for chemical prioritization and risk evaluation. On September 12, Region 5 expressed support for our comments, to be discussed at a September 15 workgroup meeting.
- On September 20, Jim Jones, OCSPP AA, will be briefed by the cross-Agency workgroups on the current status of these two rulemakings

**Glyphosate**

- OSP and NCEA provided significant comments on OPP's draft glyphosate carcinogenicity issue paper, developed for presentation at an October FIFRA Science Advisory Panel (SAP) meeting. Additionally, ORD provided input into the SAP charge questions. These documents and supporting materials will be posted to the SAP public website on September 16. \_
